

Racing Flow™ Notes

Nov 8 - Nov 12

- AQUEDUCT's *Queen of the Castle* recorded a legit victory in Sunday's 7th when running through a *Speed favoring CFR* with a *BL12* of > 5

- CHURCHILL 2yo winner *Principe Guilherme* enjoyed a *Speed favoring CFR* in wiring on debut. Replay watchers will notice how long it takes for him to emerge from the pack once the gate opened. The only horse to apply any pressure stopped abruptly and finished last at hefty odds. Overrated.

- DEL MAR's fifth on Friday went to Del Mar Anne in impressive '**vs Plod Winner**' fashion.

* *The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

Nov 1 - Nov 5

AQUEDUCT - Figures for the new 'outside turf course' will not be appearing this meet.

CHURCHILL - *Undrafted* flew home in an Xtreme for Closers. Quicksand comes to mind when reviewing the Flow figures from Thursday, as six of the eight events came back 'detrimental to speed'.

DEL MAR - *Bar of Gold* ended her career with a 'with Zip Win'. Our lone Turf Sprint upgrade, *Stormy Liberal*, flew home while cutting back off a pace-setting 'vs Zip' trip last out.

HAWTHORNE - Six of the nine dirt races on Friday resulted in Closer favoring CFRs, four of which were driven predominantly by the Bias.

WOODBINE - Wednesday's main track simply sucked the life out of early Speed.

** The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

Aug 14- Aug 20

- SARATOGA's Defiant Humor recorded a '**vs Plod Win**' in winning Thursday's 8th. Thos one ran through a *Speed favoring CFR* with a *BL12* of ~12. Repeat candidate.
- ELLIS wire to wire winners *Vedelago*, *Curl the Pearl*, and *Cutacorn* all did so with help from *Speed favoring CFRs*. Downgrade the wins while giving upgrades to all those a length or more back at the first call in each race.
- DEL MAR's Space Cadet wired Friday's second in a *Speed favoring CFR*.
- GULFSTREAM's Night Before caught a **Zip** in taking the finale on Saturday. Handicappers may be best served giving credit to the leader, pressers, and early movers from positions well ahead off the eventual winner at the first two calls.
- ARLINGTON's Pedal Patch rolled with help from a *Closer favoring CFR*. You know the drill....

* *The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

July 31- Aug 6

- SARATOGA's Grade 2 ninth on Friday went to **Racing Flow™** superstar **Bricks and Mortar**. This guy produced a third straight '**vs Plod Win**'. Carry the bold.

- SARATOGA's last seven 5.5f turf races have produced four *Speed favoring CFRs*, including three *Xtremes*.

- DEL MAR's *Chris and Dave* recorded a '**vs Zip Win**' in wiring Saturday's third. Failed stalkers and closers are unlikely to enjoy a better set up. The winner is worth a play at personal fair odds over then next 6-8 weeks, or two races, whichever comes last.

- GULFSTREAM's final two turf events on Friday each came back as *Xtremes for Closers*. Handicappers may be best served giving credit to the pacesetter, pressers, and early movers from first call positions well ahead of the eventual winners.

- ARLINGTON winner Oltre' Oro ran through a *Speed favoring CFR* with a *BL12* of more than 10 lengths in taking Thursday's opener.

- MONMOUTH's tenth on Saturday went to Bronx Beauty with help from a surface that was unkind to speed and a race Flow that resulted in a *Closer favoring CFR*. Take a look at the speed, pressers, and early movers from first two call positions significantly ahead of the eventual winner.

- WOODBINE handicappers have good reason to Reallylikethisone for running through an *Xtreme for Speed* in taking the first on Saturday.

** The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

July 18- July 23

- SARATOGAs *Orbolution* took the Sunday opener in '**vs Flow**' fashion. Flow players may want to anticipate a repeat victory by that one, as well as wins by more than a couple of his beaten foes when next seen.
- DEL MAR's *Girl Downstairs* may well handle the move up a level following a better than looks run through a *Speed favoring CFR* in defeating Alw1x foes.
- ELLIS winner Lomcevak took full advantage of a *Closer favoring CFR* in taking Sunday's sixth. Handicappers may be well served upgrading the runs of *Night of the Hunter (QtZ)*, and *Man of Stature (vZ)*.
- GULFSTREAM's Thursday card produced two winners that impressed. In the fourth event, *Metaphorically* simple ran them off their feet in recording a '**vs Zip Win**' by ging wire to wire despite setting the pace of a *Closer favoring CFR*. Failed late runners are unlikely to have it so good again any time soon. In the sixth, *Catholic Boy* ran through a *Speed favoring CFR* with a BL12 of more than seven lengths in registering his '**vs Plod Win**'. Repeat candidate.
- INDIANA's Costa Mesa caught a 'Zip' in winning from far back in Thursday's grassy fifth. The pace-setter, pressers, and early movers are upgrade worthy.
- MONMOUTH's Exclusive Package rode a *Closer favoring CFR* in winning from far back in Saturday's second. Again, speed, pressers, and early movers deserve credit when next seen, while those that benefitted from the 'Zip' might not be as fortunate next out.

* *The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

July 11- July 16

- ELLIS PARK's feature on Friday went to **Sharp Art** in '**vs Plod Winner**' fashion. By rule, we'll upgrade winner as well as the third and fourth pace finishers. Downgrade the failed pace-setter.
- LOS AL (TB) winner Dixie Crystal took the 3rd on closing day with assistance from a *Closer favoring CFR*. Handicappers may be well served giving upgrades to *Amaranta (QtZ)*, *Colonel Peggy Sue (qtZ)*, and *Fellina (vZ)*.
- INDIANA's Hadda Notion wired the opener on Friday in a race that returned a *Speed favoring CFR*. Downgrade it while giving an extra look at those that chased from a length or more back at the first call. Runners that get tired and lose interest chasing an accelerating leader can be dangerous at overlaid odds on return if finding themselves the one dancing solo.

* *The above is provided using the **Racing Fow™ 'Flow & Bias Report** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.*

Racing Flow™ Notes

June 20 - June 25

- BELMONT's Magsamelia wired the third on Thursday with significant help from a *Speed favoring CFR*. Downgrade the effort while upgrading those that chased from a length or more back at the first call.

- GULFSTREAM's main on Saturday produced race Flows and results indicative of a surface that was '*detrimental to speed*', or a '**Closer Bias**'.

- MONMOUTH's Funny Muzzle ran through a *Speed favoring CFR* with a BL12 of more than 6 lengths in taking the fourth on Sunday. The winner will deserve a look despite a tough class hike next out, while longshot No More Music's running line interests, especially if given some class relief.

* *The above is provided using the **Racing Flow™ 'Flow & Bias Report'** (pdf) and race charts. No PPs or prior grades have been considered unless noted so.*

6/30/2017

Racing Flow™ Notes

June 6 - June 11

- BELMONT **bold upgrade winner** on Thursday, **St. Louie (\$17.50)**, did so in '**Neutral or Better**' fashion. By Racing Flow™ Rule, we'll carry the lofty status when he's next seen. The failed bold upgrade from this event is reduced to a standard upgrade for his next.
- BELMONT **bold upgrade winner Ascend (\$57.00)** scored for Flow players in '**Neutral or Better**' fashion. Those that cashed this one are in a position to pull a useful profit, while having both the bankroll and the confidence to make a win wager as personal odds line deems appropriate.
- CHURCHILL's opener on Friday went to *Secret Trick* in '**vs Flow Winner**' fashion. This one ran through a grade-worthy *Speed favoring CFR* with a *BL12* of more than 8 lengths. The early leader and those that failed from positions notably more forward than the eventual winner do not inspire on return.
- SANTA ANITA's Tribal Jewel caught a *Closers CFR* in taking the 5th on Friday. Handicappers may be best served giving the speed, the pressers, and the early movers extra credit when next seen.
- GULFSTREAM's 7th on the 7th went to Mexicana in '**with Zip Winner**' fashion. Downgrade the victor, especially on a class hike, and those like it. Upgrade the speed, pressers, and early movers.....
- ARLINGTON's seventh on Friday, a *Closer favoring CFR*, can produce a productive speed horse on return.
- MONMOUTH's *Silver Ring* impressed in taking the Friday opener from off a pace of a *Speed favoring CFR*. You know the drill.

- WOODBINE's *Pink Loyd* may very well hit the wall when next seen following the wire to wire win with help from a *Speed favoring CFR* in Saturday's eighth. By Racing Flow™ Rule, we'll upgrade all those that chased from a length of more back at the first call.

** The above is provided using the **Racing Flow™ 'Flow & Bias' Report** and race charts. No PPS or prior grades have been considered unless stated otherwise.*

6/13/2017

Racing Flow™ Notes

May 30 - June 4

- CHURCHILL's Starlight Express ran through a *Speed favoring CFR* with a BL12 of 6 lengths in taking Saturday's 4th. Upgrade her as well as the three that took ground from behind the eventual winner at the early calls. Downgrade the runner-up and the failed pace setters.

- SANTA ANITA's second on Thursday went to Symposium in '**vs Zip Winner**' fashion. We'll expect another top effort from the speedster over the next couple of months. The late runs by the place and show finishers are both downgrade worthy.

- INDIANA's 7th on Wednesday went to Viva Nevada in '**with Zip**' fashion, having won from well of the pace of a *Closer favoring CFR*. Downgrade the performance while upgrading the runner-up *My Pal Katherine (QtZ)* and *Starlight Angel (vZ)*.

*The above is provided using the **Racing Flow™ 'Flow & Bias' Report'** and race charts. No PPS or prior grades have been considered unless stated otherwise.*

6/7/2017

Racing Flow™ Notes

May 2 - May 7

- Kentucky Oaks winner **Abel Tasman** took full advantage of an *Xtreme for Closers* in taking the Friday feature at CHURCHILL. Having been an upgrade entering the Oaks, she'll be demoted back one level to 'neutral' status when next seen. Runner-up *Daddy's Little Darling*, and *Salty*, get the clear cut downgrades, while the pace-setter and presser, *Paradise Woods* and *Miss Sky Warrior*, get the upgrades.

- CHURCHILL upgrade winner *Rocket Time* took Saturday's second in '**Neutral or Better**' fashion. Sharp gelding presents fair chance to at least repeat that effort.

- SANTA ANITA's Summer Budda took Saturday's sixth with assistance from a *Closer favoring CFR*. Upgrade the speed, pressers, and early movers from first two call positions significantly more forward than the eventual race winner.

- GULFSTREAM bold upgrade winner **Arthemisa** was impressive in running through an *Xtreme for Speed* with a *BL12* of more than 6 in the ninth on Sunday. Carry her lofty status when next seen, while upgrading the electric late move by runner-up Bitacora.

- ARLINGTON's Saturday results produced wire to wire winners of *Speed favoring CFRs* in races two, three, and four. Downgrade each while giving credit to those that gave chase from a length or more back at the first call.

* *The above is provided using the **Racing Flow™ 'Flow & Bias' Report** and race charts. No PPs or prior grades have been considered unless noted.*

-PBP
5/11/2017

Racing Flow™ Notes

April 18 - April 23

- KEENELAND race Flows and results indicated a surface that was '**severely speed Biased**' on both Thursday and Friday. Due to offsetting Flows in a number of the dirt events, handicappers may want to limit their focus to races one, six, and eight, and races one, two, and seven respectively.

- GULFSTREAM's five turf races on Wednesday, the minimum we require, produced Flows and results that indicated a surface that was *very detrimental to Speed*, or **Closer Biased**.

- HAWTHORNE's Applique impressed with a '**vs Plod Win**' when running through a *Speed favoring CFR* with a *BL12* of ~ 8 lengths in Friday's sixth. Repeat candidate.

- WOODBINE's sixth on Saturday went to Superduper Sky in moderate '**vs Plod Winner**' fashion. This one ran through the minimum *Speed favoring CFR* with a *BL12* of ~9 lengths. Repeat candidate.

** The above is provided using the **Racing Flow™ 'Flow & Bias' Report** and race charts. No PPs or prior grades have been considered unless noted.*

4/7/2017

Racing Flow™ Notes

March 13 - March 19

- TURFWAY's seventh on Thursday went to Flashy Julia in '**with Zip**' fashion. Downgrade the winner, and those with similar BL12s, while crediting runners that were significantly more forward at the first two calls than the eventual winner. That list begins with *Dunkirk Survivor*.
- SANTA ANITA winner Warren's Joe T also enjoyed a *Closer favoring CFR* in taking Thursday's third. The dynamic was assisted by a surface that was modestly *detrimental to Speed*. You know the drill, or see the above.
- GULFSTREAM's fourth on Saturday produced an **Xtreme for Closers** and a winner with a BL12 of almost 30! Downgrade the beneficiaries, that being My Girl Corey and those with similar BL12's. Upgrade the speed, pressers, and early movers.
- HAWTHORNE makes its first appearance of the year with a surface on Saturday that was *severely detrimental to Speed*, aka a severe **Closer Bias**.
- FAIR GROUNDS' main track results and race Flows on Monday indicated a surface that was severely '**Closer Biased**'.

* The above is provided using the **Racing Flow™ 'Flow & Bias Report'**, and race charts. No PPs or prior grades have been considered unless noted.

Get Flow

Racing Flow™ Notes

Feb 27 - March 5

- TURFWAY's surface on Saturday played '*severely detrimental to Speed*', aka a **severe 'Closer Bias'**. That noted, due to speed favoring race Flows, only the second, fourth, and sixth returned *Closer favoring CFRs*. Marquee Gal took the seventh from just of the pace of an **Xtreme for Speed**.

- SANTA ANITA's Dangerously Close wired the 4th on Friday despite a *Closer favoring CFR* produced in part from a surface that was unkind to frontrunners. This debut '**vs Zip Winner**' should have more to offer over the next two months if properly spotted. Downgrade the place and show horses as well as the back three at the wire. With no upgrades other than the winner, it is my opinion that only *Lostintranslation* warrants a chance to improve enough when next seen in second lifetime start.

- SANTA ANITA **bold** upgrade winner **Go Argento** recorded a '**Neutral or Better Win**' in taking Friday's finale. That one exited two consecutive *Closer favoring CFRs* in which it was far too forwardly placed relative to the winner's BL12. The turn-back and Blinkers-Off added to the appeal.

- FAIR GROUNDS winner *Back Stage Star* impressed in Friday's sixth when running through a strongly *Speed favoring CFR* with a BL12 of >10 lengths.

- FAIR GROUNDS race Flows and results on Thursday indicated a main track that was *severely Speed Biased*.

* *The above is provided using the Racing Flow™ 'Flow & Bias Report', and race charts. No PPs or prior grades have been considered unless noted.*

Get Flow

Racing Flow™ Notes

Feb 8 - Feb 12

- GULFSTREAM's last on Friday went to the event's lone Racing Flow™ upgrade, **Getaway Car (\$50.60)**, in '**Neutral or Better Winner**' fashion for the second straight time. The last out winner was the pressured pace setter in two straight *Closer favoring CFRs* prior to it's initial victory for Flow players in a maiden breaking score.

- SANTA ANITA's Thursday opener went to Very Hot in '**with Zip**' fashion. The three runners in front of the winner at the first two calls are eligible to improve when next seen. If matched again, prefer the one that was most forward, or handicap the race. We'll downgrade the win and the two failed back markers.

- OAKLAWN's results and race Flows on Friday indicated that an *important Speed Bias* was in play. Three race Flows supported the surface enough to produce three truly *Speed favoring CFRs*.

** The above is provided using the Racing Flow™ '**Flow & Bias Report**' and race charts. No PPs or prior grades have been considered unless noted.*

Get Flow

Racing Flow™ Notes

Feb 1 - Feb 5

- TURFWAY's Getmeoutahereshemus recorded a solid **'vs Plod Win'** when running through a *Speed favoring CFR* with a *BL12* of nearly 9 lengths in taking Friday's third.

- SANTA ANITA's fourth on Sunday went to Rye in *'with Zip'* fashion. Downgrade the win while upgrading the other half of the 'all Rye' exacta.

- FAIR GROUNDS Freudie Anne took full advantage of an ***Xtreme for Speed*** in wiring Saturday's seventh. By rule, we'll upgrade those that were a length or more back at the first call. It's highly unlikely the winner will enjoy such favorable conditions when next seen.

- OAKLAWN's results and race Flows on Saturday indicated that an *'important Speed Bias'* (our lowest classification) was in play.

** The above is provided using the Racing Flow™ 'Flow & Bias Report' and race charts. No PPs or prior grades have been considered unless noted.*

Racing Flow™ Notes

Jan 18 - Jan 22

- AQUEDUCT's fourth race on Saturday went to Can You Digg it in '**vs Plod Winner**' fashion. This one ran through a *Speed favoring CFR* with a **BL12** of ~ 9 lengths and it may be the link between you and a repeat winner.
- AQUEDUCT bold upgrade winner A.P. Cino recorded a '**Neutral or Better Win**' and will carry the grade when next seen. Unfortunately, this short priced winner reduced the *bold ROI* to barely above \$10.
- GULFSTREAM upgrade Hy Riverside recorded a '**Neutral or Better Win**' in taking Saturday's finale.
- GULFSTREAM's third on Friday went to Ballagh Rocks in '**vs Plod Winner**' fashion. The long-time friend of The Flow looks to be back better than ever. Since this one came from last to first, there are no other upgrades from the event. Downgrade the clear leader at the first call.
- FAIR GROUNDS' main track on Sunday produced *results and race Flows* indicating a surface that was 'severely detrimental to speed', aka, **Closer Biased**. That noted, only the first, second, and fourth races yielded *Closer favoring CFRs*.
- OAKLAWN's Rocky Tough was solid in recording a '**vs Plod Win**' in Sunday's opener. That one ran through a *Speed favoring CFR* with a *BL12* of more than 8.5 lengths - no easy task. Tab for repeat chance while downgrading the early leader. Horses taking ground from behind the eventual winner deserve an upgrade.

* The above is provided using the **Racing Flow™ 'Flow & Bias Report'** (pdf) and race charts. No PPs or prior grades have been considered unless noted otherwise.
